

A19624

Leader in Biomolecular Solutions for Life Science

Alcohol Dehydrogenase Rabbit mAb

Catalog No.: A19624

Recombinant

1 Publications

Basic Information

Observed MW

40kDa

Calculated MW

40kDa

Category

SMab Recombinant Monoclonal
Antibody

Applications

WB,ELISA

Cross-Reactivity

Human,Mouse

CloneNo number

ARC2203

Background

This gene encodes a member of the alcohol dehydrogenase family. The encoded protein is the alpha subunit of class I alcohol dehydrogenase, which consists of several homo- and heterodimers of alpha, beta and gamma subunits. Alcohol dehydrogenases catalyze the oxidation of alcohols to aldehydes. This gene is active in the liver in early fetal life but only weakly active in adult liver. This gene is found in a cluster with six additional alcohol dehydrogenase genes, including those encoding the beta and gamma subunits, on the long arm of chromosome 4. Mutations in this gene may contribute to variation in certain personality traits and substance dependence. [provided by RefSeq, Nov 2010]

Recommended Dilutions

WB 1:500 - 1:2000

Immunogen Information

Gene ID

124

Swiss Prot

P07327

Immunogen

A synthetic peptide corresponding to a sequence within amino acids 1-100 of human Alcohol Dehydrogenase (P07327).

Synonyms

ADH1; Alcohol Dehydrogenase

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.02% sodium azide, 0.05% BSA, 50% glycerol, pH 7.3.

Validation Data

Western blot analysis of lysates from Mouse lung, using Alcohol Dehydrogenase Rabbit mAb (A19624) at 1:1000 dilution.

Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution.

Lysates/proteins: 25µg per lane.

Blocking buffer: 3% nonfat dry milk in TBST.

Detection: ECL Basic Kit (RM00020).

Exposure time: 180s.
