ZDHHC9 Rabbit pAb

Catalog No.: A26087 1 Publications

Basic Information

Observed MW

Calculated MW
41kDa

Category
Polyclonal Antibody

Applications
WB,ELISA

Cross-Reactivity
Mouse

Background

Predicted to enable Ras palmitoyltransferase activity. Predicted to be involved in peptidyl-L-cysteine S-palmitoylation and protein targeting to membrane. Predicted to be located in cytosol. Predicted to be intrinsic component of Golgi membrane. Predicted to be part of palmitoyltransferase complex. Predicted to be active in Golgi apparatus and endoplasmic reticulum. Used to study syndromic X-linked intellectual disability Raymond type. Human ortholog(s) of this gene implicated in syndromic X-linked intellectual disability Raymond type. Orthologous to human ZDHHC9 (zinc finger DHHC-type palmitoyltransferase 9).

Recommended Dilutions

WB	1:500 - 1:1000
ELISA	Recommended starting concentration is 1 μg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID
208884

Swiss Prot
P59268

Immunogen
Recombinant protein (or fragment).This information is considered to be commercially sensitive.

Synonyms
DHHC-9; DHHC9

Product Information

Source
Rabbit

Isotype
IgG

Purification
Affinity purification

Storage
Store at -20℃
