A26094

Leader in Biomolecular Solutions for Life Science

www.abclonal.com

CD5 (Fab) Rabbit mAb

Catalog No.: A26094 Recombinant 1 Publications

Basic Information

Observed MW
Refer to figures

Calculated MW
55kDa

Category
SMab Recombinant Monoclonal Antibody

Applications
ELISA

Cross-Reactivity
Mouse

Background

This gene encodes a member of the scavenger receptor cysteine-rich (SRCR) superfamily. Members of this family are secreted or membrane-anchored proteins mainly found in cells associated with the immune system. This protein is a type-I transmembrane glycoprotein found on the surface of thymocytes, T lymphocytes and a subset of B lymphocytes. The encoded protein contains three SRCR domains and may act as a receptor to regulate T-cell proliferation. Alternative splicing results in multiple transcript variants encoding different isoforms.

Recommended Dilutions

ELISA	Recommended starting concentration is 1 μg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID
12507

Swiss Prot
P06127

Immunogen
Recombinant protein (or fragment).This information is considered to be commercially sensitive.

Synonyms
T1; LEU1

Contact

Product Information

Source
Rabbit

Isotype
Fab

Purification
Ni-NTA purification

Storage
Store at -20℃. Avoid freeze / thaw cycles.
Buffer: PBS with 0.09% Sodium azide,2mM DTT,0.05% BSA,50% glycerol,pH7.2.
