gpr17 Rabbit pAb

Catalog No.: A26222 1 Publications

Basic Information

Observed MW
Refer to figures

Calculated MW
38kDa

Category
Polyclonal Antibody

Applications
WB,IHC-P,ELISA

Cross-Reactivity
Rat,Zebrafish

Background

Predicted to enable G protein-coupled receptor activity. Predicted to be involved in positive regulation of Rho protein signal transduction and positive regulation of cytosolic calcium ion concentration involved in phospholipase C-activating G protein-coupled signaling pathway. Predicted to act upstream of or within G protein-coupled receptor signaling pathway. Predicted to be located in membrane. Predicted to be integral component of membrane. Predicted to be integral component of plasma membrane. Orthologous to human GPR17 (G protein-coupled receptor 17).

Recommended Dilutions

WB	1:500 - 1:1000
IHC-P	1:50 - 1:200
ELISA	Recommended starting concentration is 1 μg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID
100331841

Swiss Prot
A0A8M9QB08

Immunogen
Synthetic peptide. This information is considered to be commercially sensitive.

Synonyms
si:ch73-194h10.4

Product Information

Source
Rabbit

Isotype
IgG

Purification
Affinity purification

Storage
Store at -20℃
