Nr5a2 Rabbit pAb

Catalog No.: A26223 1 Publications

Basic Information

Observed MW
Refer to figures

Calculated MW
64kDa

Category
Polyclonal Antibody

Applications
WB,ELISA

Cross-Reactivity
Mouse

Background

Enables DNA-binding transcription activator activity, RNA polymerase II-specific; RNA polymerase II cis-regulatory region sequence-specific DNA binding activity; and chromatin binding activity. Involved in positive regulation of transcription by RNA polymerase II. Acts upstream of or within several processes, including cellular response to leukemia inhibitory factor; cholesterol homeostasis; and pancreas morphogenesis. Located in nucleus. Part of RNA polymerase II transcription regulator complex. Is expressed in several structures, including alimentary system; central nervous system; ear; early conceptus; and gonad. Orthologous to human NR5A2 (nuclear receptor subfamily 5 group A member 2).

Recommended Dilutions

WB	1:500 - 1:1000
ELISA	Recommended starting concentration is 1 μg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID
26424

Swiss Prot
P45448

Immunogen
Recombinant protein (or fragment).This information is considered to be commercially sensitive.

Synonyms
Ftf; LRH-1; UF2-H3B; D1Ertd308e

Product Information

Source
Rabbit

Isotype
IgG

Purification
Affinity purification

Storage
Store at -20℃
